+91-7795588287 | manjuguru814@gmail.com | github.com/Manju200417 | linkedin.com/in/manju-alagawadi

Summary

BCA student with hands-on experience in Python, SQL, Flask, REST APIs, MySQL, SQLite, and JavaScript, having built and deployed multiple AI-powered and data-driven web applications. Comfortable across the stack — databases, backend logic, and frontend integration — with a strong foundation in problem-solving, OOP, and API design. Seeking internship or entry-level opportunities in software development.

Technical Skills

Databases: MySQL, SQLite, CRUD Operations

Languages: Python, SQL, Java (OOP Basics)

Backend: Flask, REST API Development, API Integration, HTTP, JSON, Server-side Development, Retrieval-Augmented Generation (RAG)

Frontend: HTML5, CSS3, JavaScript, Jinja2 Templates, Responsive Web Design

Tools & Platforms: Git, GitHub, Postman, VS Code, Render, PythonAnywhere, XAMPP

Projects

NotesApp — AI-Powered Full-Stack Notes Management System — [GitHub](#)

Jan 2025 – Present

Tech Stack: Python, Flask, REST API, SQLite, MySQL, HTML, CSS, JavaScript, Jinja2, Groq API

- Built a full-stack academic notes platform supporting multi-category uploads with metadata-driven filtering.
- Architected a dual-database system using SQLite for metadata and MySQL (LONGBLOB) for secure binary file storage.
- Integrated Groq API-powered **AI chatbot with RAG** for real-time in-app guidance and note discovery.
- Developed role-based authentication with session management and middleware-enforced access control.

Student Management System V2 — Full-Stack Web Application — [GitHub](#) — [Live](#)

Oct 2024 – Dec 2024

Tech Stack: Python, Flask, SQLite, HTML, CSS

- Developed a production-deployed student management system handling student records with full CRUD operations.
- Implemented secure authentication and admin dashboard for controlled role-based data access.
- Designed normalized SQLite database schemas for efficient storage and query performance.
- Deployed live on PythonAnywhere as a real-world production application.

Hackathons & Activities

BrainHacks 2025 — KLE BCA College — [GitHub](#) — [Live](#)

Nov 2025

EventHub — AI-Based Event Management Application

- Built an AI-powered event management web application under competitive hackathon conditions.
- Contributed backend logic, feature implementation, and REST API integration using Flask and JavaScript.

CodeBharat — IIIT Dharwad — [GitHub](#)

Nov 2025

Playful Learning AI — Educational AI Platform

- Developed an AI-powered play-based learning system targeting student engagement at a national-level hackathon.
- Contributed to UI, backend logic, and AI feature integration.

Certifications

- Java Programming — HackerRank
- Python — OneRoadmap
- SQL — OneRoadmap
- Google Agentic AI — Google / Hack2Skill
- Technology Job Simulation — Deloitte Australia

Education

DR DG Shetty College, Dharwad

Bachelor of Computer Applications (BCA)

2023 – 2026

Affiliated to Karnatak University Dharwad
